## HealthChoice Illinois is your way to quality Medicaid care!

HealthChoice Illinois is the mandatory Medicaid managed care program. In HealthChoice Illinois, you must choose a primary care provider (PCP) and a health plan for care coordination.

Your PCP is the doctor or clinic you go to when you are sick or need a checkup. Your health plan is the group of doctors, hospitals, and other providers who work together to give you the healthcare you need.

All health plans have the same health services that you get now. Some plans have extra benefits.

It's important that you learn about all of your health plan choices.

To learn more, read *Your Health Plan Choices*, the *HealthChoice Illinois Plan Report Card*, and *Choosing a HealthChoice Illinois Plan* (on the back of the report card). All of these items came with this packet.
